## Did you know...

- ... That direct flights to Iceland from the East coast of USA are typically available for 500-700 USD, for a round trip?
- ... That you can be pitching your tent within two hours after you get out of the international airport in Iceland?
- ... That the camp is owned and run by the Icelandic Boy and Girl Scout Association and the Reykjavik Scout Association?
- ... That our staff include experienced scouts, teachers, search&rescue volunteers and international volunteers?
- ... That Iceland is often ranked the safest country on earth? Even camping is safe! No reptiles or mosquitos and the biggest land predator is the arctic fox, with average weight of less than 8 lb!
- ... That scouting in Iceland has been co-ed since 1944?

## Wait ... where?!

Iceland is only a 5 hour flight away from the east coast of the USA. Roughly the same size as Kentucky, only 320,000 people inhabit this multi-colored land of ice and fire (as opposed to the 4.4 million in Kentucky).

Iceland is one of the fastest growing destinations for US travellers, and now you have a chance of experiencing the natural wonders of Iceland AND enjoy a high adventure scout camp at the same time!
